

BABATUNDE ATIJOSAN

Frontend Engineer

✉ atijosanbabatunde@gmail.com 📞 +2349034775269 📍 Lagos, Nigeria 🌐 Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer with over 5 years of experience specializing in the development of mission-critical financial infrastructure. Expert in React, Next.js, and TypeScript, with a deep focus on architecting secure micro-frontend services and integrating complex payment APIs. Proven track record of optimizing high-transaction web interfaces for stability and speed (90% Lighthouse scores). Passionate about building seamless digital payment experiences that adhere to global security and accessibility standards.

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer

02/2024 – Present

Peerless Technology

- **Core Payment Infrastructure:** Developed and maintained the UI for a core banking application, prioritizing secure and intuitive user journeys for high-stakes financial transactions.
- **Scalable Payment Orchestration:** Architected a micro-frontend service app to enable modular deployment and independent scaling of financial feature modules.
- **Robust API Integration:** Optimized complex RESTful API data flows, ensuring high performance and secure communication between frontend clients and backend banking cores.

Frontend Software Engineer

08/2024 – 12/2024

Gryn-index (Contract)

- **Financial Data Visualization:** Architected multi-role dashboard systems using TypeScript and ApexCharts to provide real-time visibility into liquidity and application tracking.
- **Design Systems for Scale:** Established a unified component library using Tailwind CSS and Material-UI, ensuring brand consistency and rapid feature delivery across the ecosystem.

Lead Frontend Engineer

03/2022 – 12/2023

Ultainfinity Global Group

- **Engineering Leadership:** Led the full-cycle development of a global airdrop platform, overseeing everything from initial design hand-off to production rollout.
- **System Stability & Reliability:** Achieved a 20% reduction in error logs by implementing strict code quality standards and participating in detailed peer reviews.
- **Performance Engineering:** Improved technical performance scores from 40% to 90% (Lighthouse), significantly enhancing user retention in a competitive fintech market.

Frontend Developer

04/2020 – 06/2021

Techpet

- **SaaS Interface Development:** Developed "Appera," a cross-industry project management tool, focusing on high-quality, reusable React components.
- **Automated Testing:** Utilized Cypress to validate application functionality and reliability, ensuring the platform met enterprise-grade performance benchmarks.

TECHNICAL SKILLS

Fintech Expertise

Payment Gateway Integration, Transaction Flow Optimization, Core Banking UI, Secure API Consumption (Bearer/JWT).

Performance & Quality

Web Vitals Optimization, Technical SEO, Cypress (E2E/Unit Testing), WCAG Accessibility.

Frontend Architecture

Micro-frontends, React.js, Next.js (SSR/SSG), TypeScript, State Management (Redux, React Query, Zustand).

Tools & DevOps

Vite, Webpack, Figma, Storybook, Git Flow, CI/CD (Bitbucket/GitHub Actions).
